

KEY INVESTOR INFORMATION

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

RoboCap UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MLC Management Limited USD Institutional Class Founder Shares (IE00BYZB6R47)

Objectives and Investment Policy

The Sub-Fund's objective is to increase the value of your shares over the long term.

The Sub-Fund will seek to achieve its objective by investing in the robotics and automation theme in different countries, sectors and markets. This theme includes not just companies involved in the production of robots and automated machinery, but also businesses that are developing or producing automation software and technology, artificial intelligence, 3D printing, autonomous vehicles, automated services, components and subsystems.

There are no restrictions on the amount the Sub-Fund can invest in any country or on the size of company in which the Sub-Fund can invest. However, there is an overall limit of 35% on investment in emerging markets, which are markets that are not considered to be as advanced in economic or market regulation terms as the major industrialised nations.

The Sub-Fund may invest directly in a company by buying equity securities, or may invest indirectly through equity related securities, collective investment schemes and derivatives. The Sub-Fund may also use derivatives to hedge against market risk. Derivatives used may include warrants, swaps, options, contracts for difference, forwards and swaptions.

You may sell your shares on any day that banks are open in Ireland and the United Kingdom. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. five business days prior to the day on which you want to sell.

Your shares do not pay you income, but instead the Sub-Fund reinvests such income to grow your capital.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The risk category for this Sub-Fund is set at 5. It is calculated in line with the regulations and is based on a combination of the historic performance of the Sub-Fund since launch and an index or benchmark representing the performance of the assets in which the Sub-Fund typically invests for the period after launch.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

China Connect: Investment may be made in securities which are traded on the Shanghai market in China through the China Connect scheme operated jointly by the Hong Kong and Shanghai exchange. The application and interpretation of the laws and regulations of Hong Kong and the People's Republic of China and the rules applied to the China Connect scheme are untested and there is a risk that they may not be applied as expected, which could create difficulties for the Sub-Fund in disposing of its investment held through the scheme, or which could

create losses for the Sub-Fund.

Derivatives and Leverage Risk: The Sub-Fund may use derivatives for taking short positions or for other investment or hedging purposes. Whilst this is intended to help the Sub-Fund to manage risk or to take investment positions more efficiently or effectively than could be done otherwise, leverage and shorting can involve the risk of higher volatility, especially if some of the expected offsetting positions between long and short investments do not work as expected, and the Sub-Fund may be exposed to additional risks and costs as a result.

Liquidity Risk: Assets in which the Sub-Fund invests may be sold below their valuation due to insufficient liquidity in the market.

Counterparty Risk: A counterparty may fail to pay the proceeds of sale for assets sold by the Sub-Fund and/or may fail in delivering securities purchased by the Sub-Fund.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	1.20%
Charges taken from the fund under certain specific conditions	
Performance fee	10.00% of the increase in the NAV per share over the previous highest NAV per share on which performance fee was paid.

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charges figure is based on expenses for the twelve months ending December 2017. This figure may vary from year to year. It excludes portfolio transaction costs and performance fees. In the last financial year ending 31 December 2017, the performance fee amounted to 1.97%.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in US Dollars.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2016. This share class launched on 4 January 2016.

Practical Information

About the Sub-Fund

The Sub-Fund's assets are held with its depositary, Northern Trust Fiduciary Services (Ireland) Limited.

RoboCap UCITS Fund is a Sub-Fund of MontLake UCITS Platform ICAV. The assets of this Sub-Fund are segregated from other Sub-Funds on MontLake UCITS Platform ICAV.
