Drakens Africa ex S.A. UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MLC Management Limited CHF Retail Class Shares (IE00BD3S0B24)

Objectives and Investment Policy

The investment objective of the Sub-Fund is to seek capital appreciation over the long term through investment in African securities (excluding South African securities). The Sub-Fund does not have a particular industry, sector or market capitalisation focus.

The Sub-Fund will invest in equities (i.e. shares) and equity-related securities (i.e. securities which have the potential to convert into equity in the issuer). The equities and equity-related securities in which the Sub-Fund will invest will be issued by: (i) companies located in any country in Africa (excluding companies located in South Africa); (ii) the government of any country within Africa (excluding South Africa) or any of its agencies or instrumentalities or any local government in any such country; and (iii) companies and other entities based outside Africa (excluding South Africa) whose income or assets are substantially derived from or which, as holding companies, hold the predominant portion of their participations in companies located in any or all of such countries.

The Sub-Fund may also invest in collective investment schemes and exchange traded funds or ETFs which provide exposure to the securities and other investments listed above and that are consistent with the investment objectives of the Sub-Fund.

The Sub-Fund may also use derivatives for currency hedging purposes. Derivatives used may include exchange and over the counter traded derivatives, namely forward foreign exchange contracts and foreign exchange futures.

You may sell your shares in the Sub-Fund on any business day that banks are open in Ireland and South Africa. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one day prior to the business day on which you want to sell.

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

As your shares are denominated in Swiss Francs and the Sub-Fund is in US Dollars, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates.
