MONTLAKE

Avenir UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MLC Management Limited EUR Retail Class Shares (IE00BYWM5063)

Objectives and Investment Policy

The investment objective of the Sub-Fund is to seek to achieve long term capital growth.

The Sub-Fund will invest in shares and related securities issued by large U.S. companies. The Sub-Fund may also invest to a lesser extent in medium sized companies and companies outside the U.S.

The Sub-Fund will focus on companies which are involved in innovation sectors such as robotics, security, digital and healthcare.

The Sub-Fund may use options to gain exposure to these companies. An option is a contract which gives the contract buyer the right, but not the obligation, to exercise a feature of the option, such as buying a specified quantity of a particular product, asset or financial instrument, on, or up to and including, a future date (the exercise date). The 'writer' (seller) has the obligation to honour the specified feature of the contract.

The Sub-Fund may also invest in open-ended exchange traded funds and other open ended collective investment schemes which enable the Sub-Fund to achieve its investment objective. The

Sub-Fund may also invest in cash and money market instruments for cash management purposes.

You may sell your shares in the Sub-Fund any day that banks are open in Dublin, Ireland and Geneva, Switzerland. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. three business days before the day on which you want to sell.

Your shares do not pay you income, but instead the Sub-Fund reinvests such income to grow your capital.

As your shares are denominated in Euro and the fund is valued in US Dollars, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates against the U.S. Dollars.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The risk category for this Sub-Fund is set at 5. It is calculated in line with the regulations and is based on a combination of the historic performance of the Sub-Fund since launch and an index or benchmark representing the performance of the assets in which the Sub-Fund typically invests for the period after launch.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Counterparty Risk: A counterparty may fail in paying the proceeds of sale for assets sold by the Sub-Fund or may fail in delivering securities purchased by the Sub-Fund.

Derivatives and Leverage Risk: Leverage arises from entering into derivatives whose terms have the effect of magnifying an outcome meaning the profits and losses from investment can be greater than if the investment is made directly into the underlying securities.
