

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## MontLake Ibox Capital Macro UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MLC Management Limited CHF Institutional Class B Pooled Shares (IE00BD9PVW59)

### Objectives and Investment Policy

The investment objective of the Sub-Fund is to provide shareholders with a positive absolute return in all conditions based on investing in currencies as a way to take advantage of global macro-economic trends. This reflects the view that the relative valuation of a country's currency reflects the perceived strength and attractiveness of its economy.

The Sub-Fund will primarily gain exposure to global currencies such as Sterling, U.S. Dollar, Euro and Australian Dollar, selling one currency and buying another at the same time, with the transaction due to settle at a set point in the future. The Sub-Fund will invest in between two and six of these currency pairs at any time. A "currency pair" is where the Sub-Fund will be long in one currency and short in another currency. In broad terms, long investments mean that the Sub-Fund will benefit if prices go up, but lose if prices go down. Conversely, short investments mean that the Sub-Fund will benefit if prices go down, but lose if prices go up.

The Sub-Fund will invest in currencies through derivatives such as forwards, non-deliverable forwards and options. A derivative is a contract between two or more parties whose value is based on an agreed-upon underlying financial asset.

Under normal market conditions, it is expected that long and short positions held by the Sub-Fund will each typically represent up to

200% of the Net Asset Value of the Sub-Fund at any one time.

The Sub-Fund may also invest in open-ended exchange traded funds and other open ended collective investment schemes which enable the Sub-Fund to achieve its investment objective. The Sub-Fund may also invest in cash and money market instruments for cash management purposes.

You may sell your shares in the Sub-Fund on any day that banks are open in Dublin, Ireland and London, United Kingdom. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one business day before the day on which you want to sell.

Your shares do not pay you income, but instead the Sub-Fund reinvests such income to grow your capital.

As your shares are in Swiss Francs and the fund is in U.S. Dollars, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates against the U.S. Dollars.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and Reward Profile

The risk category for this Sub-Fund is set at 7. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

The risk category shown is not guaranteed and may change over time.

A **category 1** fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 fund is not twice as risky as a category 1 fund.

**Derivatives and Leverage Risk:** The Sub-Fund may use financial derivative instruments for taking short positions or for investment hedging purposes. Whilst this is intended to help the Sub-Fund to manage risk or to take investment positions more efficiently or effectively than could be done otherwise, derivatives can involve leverage and the risk of higher volatility, especially if some of the

expected offsetting positions between long and short investments do not work as expected, and the Sub-Fund may be exposed to additional risks and costs as a result.

**Credit and Counterparty Risk:** A counterparty may fail in paying the proceeds of sale for assets sold by the Sub-Fund or may fail in delivering securities purchased by the Sub-Fund. The Sub-Fund may also incur the risk that the counterparty to a derivative position may fail to pay the Sub-Fund its profits on its derivative positions.

**For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the Prospectus.**

## Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	2.13%
Charges taken from the fund under certain specific conditions	
Performance fee	15.00% of the increase in the NAV per share over the previous highest NAV per share on which performance fee was paid.

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charge figure is based on an estimate of the charges. This figure may vary from year to year and does not include transaction costs or performance fees.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at [www.montlakeucits.com](http://www.montlakeucits.com).

## Past Performance

There is insufficient data to produce a useful indication of past performance for the Share Class.

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in Swiss Francs.

Past performance is not a reliable indicator of future results.

The Sub-Fund has yet to launch.

## Practical Information

### About the Sub-Fund

The Sub-Fund's assets are held with its depositary, Northern Trust Fiduciary Services (Ireland) Limited.

MontLake Ibox Capital Macro UCITS Fund is a Sub-Fund of MontLake UCITS Platform ICAV. The assets of this Sub-Fund are segregated from other funds on MontLake UCITS Platform ICAV.
