

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

## North MaxQ Macro UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MLC Management Limited GBP Institutional Pooled Class Shares (IE00BH3H5X48)

### Objectives and Investment Policy

The investment objective of the Sub-Fund is to increase the value of your shares by investing in asset classes, namely interest rates, currency exchange rates, commodities and shares (the "Asset Classes").

The strategy of the Sub-Fund will be to invest directly through debt securities and indirectly through the use of swaps, options, forwards or futures in the Asset Classes. The Sub-Fund will focus its investment mainly on European countries. The Sub-Fund may take short positions and will normally be leveraged. 100% of the sub-funds positions may be long or short at any one time.

The Sub-Fund will also invest in exchange traded products ("ETPs"). ETPs are a type of security or vehicle that will gain exposure to the performance of the Asset Classes which are traded on a stock exchange.

You may sell your shares on any Wednesday that banks are open in Ireland and the United Kingdom. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. three business days before the day on which you want to sell.

Your shares do not pay you income, but instead the Sub Fund reinvests such income to grow your capital.

As your shares are denominated in Sterling and the Sub-Fund is in US Dollars, forward currency exchange contracts are used to attempt to eliminate the effects of changes in the currency exchange rates against the US Dollar.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and Reward Profile

The risk category for this Sub-Fund is set at 7. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

**Counterparty Risk:** A counterparty may fail in paying proceeds of sale of assets to the Sub-Fund and / or may fail in delivering securities purchased to the Sub-Fund. In addition, the insolvency of any institution providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments may expose the Sub-Fund to financial loss.

**Derivatives and Leverage Risk:** The Sub-Fund may use financial derivative instruments for taking short positions or for other investment or hedging purposes. Whilst this is intended to help the Sub-Fund to manage risk or to take investment positions more efficiently or effectively than could

be done otherwise, leverage and shorting can involve the risk of higher volatility, especially if some of the expected offsetting positions between long and short investments do not work as expected, and the Sub-Fund may be exposed to additional risks and costs as a result.

**Short Selling Risk:** The Sub-Fund may create synthetic short positions through the use of derivatives. Short positions behave differently to long positions; for example, the Sub-Fund can come under pressure to close out short positions at short notice and before an offsetting long position can mature. This can create unexpected losses from positions that might otherwise have been seen as low risk or well hedged.

## Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	2.39%
Charges taken from the fund under certain specific conditions	
Performance fee	20.00% of NAV appreciation during calculation period.

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charges figure is based on expenses for the twelve months ending December 2017. This figure may vary from year to year. It excludes portfolio transaction costs and performance fees. In the last financial year ending 31 December 2017, the performance fee amounted to 0.00%.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at [www.montlakeucits.com](http://www.montlakeucits.com).

## Past Performance

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in Sterling.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2014. This share class launched on 8 July 2014.

## Practical Information

### About the Sub-Fund

The Sub-Fund's assets are held with its depositary, Northern Trust Fiduciary Services (Ireland) Limited.

North MaxQ Macro UCITS Fund is a Sub-Fund of MontLake UCITS Platform ICAV. The assets of this Sub-Fund are segregated from other Sub-Funds on MontLake UCITS Platform ICAV.
