

KEY INVESTOR INFORMATION

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

Butler Credit Opportunities UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MLC Management Limited EUR Institutional Class A Shares (IE00BF2CQP52)

Objectives and Investment Policy

The investment objective of the Sub-Fund is to seek to achieve attractive risk-adjusted returns over time.

The Sub-Fund will invest in fixed income securities and equity securities, mainly in Europe. Typically the Sub-Fund will have at least 80% in fixed income and up to 20% in equity securities. Fixed income securities are debt instruments (such as bonds) issued by a government, a corporation or other entity which provide investors with a return in the form of periodic coupon payments and eventual return of their investment. The fixed income securities will generally be a mix of investment grade (rated as lower risk) or sub-investment grade (rated as higher risk), but it is possible they may all be sub-investment grade at times.

The Sub-Fund may take short positions in its investments. This means the Sub-Fund will make a profit if the value of the investment goes down, but it will lose money if the value of the investment goes up. Unless the loss is capped or offset by another investment, it could theoretically be unlimited.

The Sub-Fund may invest through index derivatives, which give broad market or sector exposure, and may use a range of other derivatives, such as total return swaps, options, futures, credit default swaps or contracts for difference to invest indirectly in specific fixed income or equity investments. Derivatives may also be used for hedging purposes. A derivative is a contract between two or more parties whose value is based on an agreed-upon underlying financial asset, index or security.

It is expected that by using derivatives, the Sub-Fund's long positions will typically be up to 125% of the net asset value of the Sub-Fund and short

positions up to 75% at any given time.

The Sub-Fund may invest in open-ended and closed-ended collective investment schemes and open-ended exchange traded funds which enable the Sub-Fund to achieve its investment objective. The Sub-Fund may also invest in cash and money market instruments for cash management purposes.

You may sell your shares in the Sub-Fund every Wednesday provided it is a business day or the following business day where the relevant Wednesday is not a business day and the last business day of every month. A business day is a day that banks are open in Ireland and the United Kingdom. You must submit your application to the Sub-Fund's administrator before 1.00p.m. five business days prior to the day on which you want to sell.

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 1-3 years.

Risk and Reward Profile

The risk category for this Sub-Fund is set at 4. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Counterparty Risk: A counterparty may fail in paying proceeds of sale of assets to the Sub-Fund and/or may fail in delivering securities purchased by the Sub-Fund.

Sub-Investment Grade Risk: Sub-Investment grade fixed income securities are subject to the increased risk of an issuer's inability to meet principal and interest payment obligations. In addition, lower rated fixed income securities generally present a higher degree of credit risk and the risk of loss due to default by these issuers is significantly greater.

Derivatives for Investment and Hedging Purposes: The Sub-Fund may use derivative instruments to establish 'long' and 'synthetic short' positions to meet its investment objectives. Derivatives use exposes the Fund to risks different from, and potentially greater than, the risks associated with investing directly in securities and may therefore result in additional loss, which could be significantly greater than the cost of the derivative.

Leverage Risk: Leverage arises from entering into derivatives whose terms have the effect of magnifying an outcome meaning the profits and losses from investment can be greater than if the investment is made directly into the underlying securities.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	1.27%
Charges taken from the fund under certain specific conditions	
Performance fee	15.00% of the increase in the NAV per share over the previous highest NAV per share on which performance fee was paid.

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charge figure is based on an estimate of the charges. This figure may vary from year to year. It does not include portfolio transaction costs or performance fees. In the last financial year ending 31 December 2017, the performance fee amounted to 0.00%.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

There is insufficient data to produce a useful indication of past performance for the Share Class.

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in Euro.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2017. This share class launched on 18 October 2017.

Practical Information

About the Sub-Fund
